## QUARTERLY ACTIVITIES REPORT

FOR THE PERIOD ENDING 31 DECEMBER 2023

### COMMERCIAL PILOT PROGRAMME DRILLING PROGRESSING ON PLAN AND BUDGET

## SEROWE-3.1 UNDERWENT 3 FLOW-TESTS WITH GAS FLARED

## **A\$2.4 MILLION RAISED VIA PRIVATE PLACEMENT**

#### **Highlights:**

- **Approval for Dual Listing on Botswana Stock Exchange (BSE):** Effective from 22 November 2023, enhancing Botala's market presence and allowing Batswana to invest.
- **A\$2.4M Placement to fund Commercial Pilot Programme:** Strong investor support secures funding for ongoing development.
- **Successful Completion of Serowe-3.3 and Serowe-3.5 Pilot Wells:** Both wells completed on time and within budget, ensuring significant progress with Project Pitse.
- Advancement in Renewable Energy Initiatives: Progressing to the next phase of the Solar Project in the Serowe Energy Hub.
- **Commitment to Operational Efficiency and Growth:** Ongoing focus on enhancing drilling efficiencies and exploring new development phases.

CEO Kris Martinick commended the team's operational efficiencies, highlighting a significant reduction in drilling time and costs. This operational excellence, combined with meeting recent financial and corporate milestones, positions Botala for sustained growth and success in its ventures.

Botala Energy Ltd (ACN 626 751 620) ("Botala") is pleased to provide the following Quarterly update.

#### **Project Pitse Progress.**

Botala completed three of the four planned Pilot Wells with the remaining well drilling suspended for completion in the new year after core sampling. These wells intercepted significant coal sections, with Serowe-3.3 intercepting 24m of net coal and Serowe-3.5 a total of 25m of net coal in the targeted upper coal seams. Successful completion of these wells on time and under budget underscores Botala's operational efficiency and the high potential of the Serowe Coal Bed Methane (CBM) gas project.

Project Pitse, as Botala's first Commercial Pilot Project, demonstrated promising results with Serowe-3.1's initial flaring producing an unstabilised peak flow rate of 42 thousand standard cubic feet per day. This bolsters confidence in achieving the target commercial flow rate from the 5-well system.

#### **Corporate Developments.**

During the Quarter Botala completed a dual listing on the Botswana Stock Exchange (BSE) by way of introduction to the BSE Foreign Main Board, effective 22 November 2023. This strategic move is expected to broaden Botala's investor base and enhance liquidity. Botala will adhere to the ASX Listing Rules for all announcements on the ASX and BSE. Botala's shares are tradeable on both the ASX and BSE, with Computershare Investor Services Pty Ltd overseeing the reconciliation of share registers between the two exchanges.

Botala has appointed Imara Capital Securities (Pty) Ltd as its sponsor and sponsoring broker on the BSE. A waiver from the BSE was received, eliminating the need for a public offer of shares concurrent with the dual listing.

#### Capital Raise.

Botala successfully secured A\$2.4 million through an oversubscribed placement in December 2023, receiving strong backing from both new and existing investors. This financial injection, with the issue price representing an 8.4% premium to the 10-day VWAP, is earmarked to support the completion of the commercial pilot programme and planning of renewable energy projects, including a Solar Panel Manufacturing Plant in Botswana. The funds also bolster Botala's working capital, positioning Botala strongly for future growth.

#### About Botala

Botala is an ASX-listed CBM exploration and development company focussed on developing production from its 70% owned Serowe CBM Project located in a high-grade CBM region of Botswana, and related early-stage renewable energy opportunities. Botala, as Operator, believes that there is a considerable opportunity to commercialise the project due to the demand for a stable power supply in Botswana. The remaining 30% of the Serowe CBM Project is owned by ASX-listed Pure Hydrogen Corporation Limited pursuant to a joint venture agreement with Botala dated 8 December 2020.

	8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?		
	Answer: No, the Company expects costs to reduce in the near term as the drilling programme for Project Pitse is completed and into commissioning.		
	8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?		
	Answer: The Company recently announced a private placement of approximately A\$2.4 million (before costs) (refer ASX announcement 22 December 2023) and is continuing to evaluate future capital raising opportunities to support future work programmes. Botala received A\$1.65 million of the private placement in cash before 31 December 2023 with A\$750k to be received in the Quarter ending 31 March 2024.		

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, as set out in Question 8.8.1 above, the Company is intending to reduce its capital expenditure in the near term while it evaluates future capital raising and other opportunities.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
