BASIS OF PREPARATION

The audited financial statements for the year ended 29 February 2024 have been prepared based on accounting policies which comply with International Financial Reporting Standards ("IFRS"). The accounting policies applied are consistent with those of the annual financial statements for the year ended 28 February 2023, as described in those annual financial statements, save for new standards that became effective during this financial year, the impact of those being immaterial.

This summarised financial information has been extracted from the audited financial statements. The Group's external auditors, EY, have issued an un-qualified audit opinion on the consolidated and separate financial statements of the Group and Company (respectively) for the year ended 29 February 2024. This summary has not been audited or reviewed by EY.

FINANCIAL RESULTS

These extremely strong results, both revenue and profit for the year, have built upon the improvements of the previous year and have significantly surpassed those reported prior to the COVID-19 pandemic as a result in strong demand from source markets as well as effective marketing growing our agent base, improving yield and Revenue per Available Room ("RevPAR") as well as occupancies.

These improvements have been felt across the business with the performance of our hospitality brands Desert & Delta Safaris and Ker & Downey Botswana being particularly strong.

FUTURE OUTLOOK

Chobe continues to harness talent at all levels, developing a highly capable team to aggressively leverage our strong balance sheet to drive growth in line with our shareholders' investment horizons. We continue to invest in our marketing effort, exploring new opportunities within our historic markets as well as wider opportunities globally. Several new products will be launched

in the coming year. Additionally, Chobe is proactively looking at investment opportunities across the region and has completed negotiations to market and operate a premier lodge in Zambia.

Conflict in Europe and the Middle East has not had a discernible impact on forward reservations, and thus forecast revenue, however the inflationary effect of uncertainty and pressure on the supplies of fuel, imported material and essential foodstuff has increased our costs. Chobe's operations have faced further challenges from the significant delays and uncertainties in international supply chains. Wider conflict remains a risk.

The dividend policy guideline remains to pay a dividend that is at least twice covered by attributable fully taxed earnings subject to the prudent ongoing liquidity requirements of the Group. Advanced Travel Receipts should be segmented and not paid as dividends. The Group's strong cash position provides us with the opportunity to take advantage of any expansion opportunities that may arise with capital expenditure historically funded by internally generated cashflows.

Chobe, as the only ecotourism company listed on the Botswana Stock Exchange, continues to provide an important mechanism for citizens to invest in and derive benefit from Botswana's tourism sector.

DIVIDENDS

In keeping with the Company's dividend distribution policy and the solvency requirements of the Companies Act, your Directors have declared a net dividend of 80 thebe per share, payable to shareholders registered at the close of business on 13 June 2024, with an ex-dividend date of 11 June 2024, for payment on 25 June 2024.

UNCLAIMED DIVIDENDS

The Directors wish to bring to the notice of shareholders that there are certain amounts of unclaimed dividends in the Company's records. Shareholders are reminded to contact the Transfer Secretaries to claim their outstanding dividends.
