#### COMMENTARY

#### 1. NATURE OF BUSINESS

Choppies Enterprises Limited ("the Company") is a Botswana-based investment holding company operating in the retail sector in Southern Africa. Dual-listed on the Botswana Stock Exchange ("BSE") and Johannesburg Stock Exchange ("JSE"), its are food and general merchandise retailing as well as financial service transactions supported by centralised distribution channels through distribution and logistical support centres.

Each week, approximately 2.0 million customers visit 177 stores under five formats in four countries. With annual revenue of more than BWP6 billion, Choppies employs 10 000 people and is the largest grocery retailer in Southern Africa, outside of South Africa.

## 2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The abridged consolidated financial results and financial position of the Group are extracted from the audited Group annual financial statements prepared in accordance with the requirements of the BSE Listings Requirements and the JSE Listing Requirements, as well as the requirements of the Botswana Companies Act, as amended.

The reports have been prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards ("IFRS").

The accounting policies used in the preparation of the condensed consolidated financial statements are in terms of IFRS and are consistent with those applied in the previous year and the methods of computation are consistent with those of the previous annual financial statements, except as described below.

Any investment or similar decisions by stakeholders should be based on the consideration of the complete Group annual financial statements, which are available for inspection at the Company's registered office.

The Group has restated certain figures in the comparative financial statements for the year ended 30 June 2022, due to an error identified after the issuance of the prior year's financial statements. The error relates to gratuity, which according to the Botswana Employment Act, was payable to the Chief Executive Officer (CEO) but was not accrued or paid up to 1 July 2018. The gratuity is a statutory requirement applicable to all employees who are not a member of a pension fund, and this was duly accrued and paid to all other eligible employees, but had been omitted in the case of the CEO. The gratuity was accrued after 1 July 2018 to 30 June 2023.

This gratuity liability was calculated to be BWP16 million as at 1 July 2018. The error has been corrected retrospectively as the amount related to compensation of key management and was therefore considered to be qualitatively material.

## Reassessment of useful lives of property, plant and equipment

During the financial year the Group reassessed useful lives by reference to actual usage and relative to our maintenance plans which help extend useful lives. As a low-cost retailer, we sweat our assets but perform regular maintenance to maintain high standards of customer service. The impact on the current year depreciation is BWP51 million. The Group's depreciation will be impacted in future periods by similar amounts.

## 3. DIRECTORS' RESPONSIBILITY FOR THE CONDENSED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the abridged audited Group financial results and financial position of the Company in accordance with BSE and JSE Listings Requirements and the Companies Act of Botswana.

## 4. GOING CONCERN

The Board evaluated the going concern assumption up to the date of signing of the Group annual financial statements, considering the current financial position and their best estimate of the cash flow forecasts and considered it to be appropriate in the presentation of the consolidated annual financial statements.

The Board has reviewed the cash flow forecast for the next 12 months, as prepared by management and is of the opinion that the Group has more than sufficient liquidity to adequately support its working capital requirements and consequently, is satisfied with the Group's ability to continue as a going concern for the foreseeable future. Furthermore, it is expected that the Russia-Ukraine war will have less of an impact on the Group during the next financial year.

The Board, relying on management's assessment is satisfied that the Group is a going concern and therefore continues to apply the going concern assumption in the preparation of the financial statements.

## 5. GROUP RESULTS

## Statement of profit/loss and segmental report

The Group's retail sales increased by 6.5% to BWP6 433 million (2022: BWP6 042 million), driven by sixteen new stores coupled with price growth of 6.8%. Sales volumes increased by 1.6% and excluding the new stores declined by 4.6% on a comparable basis.

In Pula terms, gross profit grew by 4.0% to BWP1 359 million (2022: BWP1 307 million) despite the challenging economic environment. Botswana and Namibia marginally grew gross profit rates while rates in Zambia and Zimbabwe declined.

The Group faced a demanding economic environment characterised by stubbornly high inflation, higher interest rates and unemployment, all of which continue to constrain consumer spending and the consumer's ability to digest higher prices. Sa volumes were lower in many categories, exacerbated by competitor discounting, with cost pressures only partly recovered

The gross profit margin was accordingly reduced to 21.1% from last year's 21.6% due to higher supply chain costs, including fuel and managing prices in response to higher cost inflation and competitor discounting

While expenses increased 5.1%, excluding the depreciation restatement, expenses grew 9.8%, partly due to new stores and inflation. Foreign exchange losses on lease liabilities of BWP31 million (against a gain of BWP28 million last year) were partly offset by foreign exchange gains on Zimbabwean legacy debt receipts of BWP18 million (2022: BWP15 million). Operating profit (EBIT) reduced by 1.8% from BWP279 million to BWP274 million while adjusted EBIT, which excludes foreign exchange gains and losses on lease liabilities, movements in credit loss allowances, Zimbabwean legacy debt receipts and the reassessment of depreciation, reduced by 7.5% as costs grew faster than gross

Net finance costs were higher than last year due to higher interest rates and interest on new stores lease liabilities

The effective tax rate is lower than the standard rate mainly due to the legacy debt receipts from Zimbabwe that are exempt from income tax and the raising of deferred tax on carried forward tax losses. We raised a deferred tax asset of BWP23 million for Zambia as we are now confident that this country will generate taxable profits in the foresceptle future. foreseeable future

The segment report reconciles EBITDA and EBIT to adjusted EBITDA and adjusted

**Statements of financial position and cash flows**The rights offer was successfully finalised by year-end with a portion of the proceeds paid toward debt during and after the year-end.

The Group continues to manage its cash resources and liquidity prudently with a reduction of BWP132 million in debt with BWP87 million paid out of internally generated funds and the balance of BWP45 million paid out of the proceeds of the rights issue. Capital expenditure increased to BWP185 million (2022: BWP122 million) as the Group invested in new stores and maintained the distribution fleet. We raised BWP50 million from leases to fund the fleet (2022: BWP36 million).

Despite the growth in sales, inflation and new stores, our inventory reduced by  ${\rm BWP20}$  million helped by more stable global supply and the benefits of implementing our inventory optimisation system.

As the economies in which the Group operates recover and the new stores reach full potential, an improvement in margins is expected. With a value proposition that resonates with customers and with the cost of everyday items still stubbornly high in too many categories, more customers are choosing Choppies for the value and assortment we are known for. While we have strong and resilient brands, affordability is a growing constraint for consumers, limiting their ability to digest higher prices.

Group funding covenants were complied with, and the Group has sufficient headroom in the covenants to cushion any shocks.

#### 6. OPERATIONAL OVERVIEW

Total for

Botswana experienced sales growth to BWP4 459 million (2022: BWP4 209 million) supported by volume growth from new stores and double-digit price inflation. Sales from Botswana increased by 5.9% and like-for-like sales growth was 2.2%, as the business continued to show strong resilience in an increasingly challenging economic environment. The Botswana economy continues to experience elevated inflation, high unemployment, and low economic growth.

EBITDA grew 5.8% and adjusted EBITDA was flat on last year.

The performance for the second half was much stronger than in the first half as our strategies, leadership and inventory optimisation system have started to come to fruition.

Rest of Africa consists of Namibia, Zambia and Zimbabwe
The Rest of Africa sales increased by 7.7% to BWP 1 974 million (2022: BWP1 833 million) driven by the addition of nine new stores, inflationary increases in Zimbabwe and Zambia and volume growth in Namibia and Zambia. However, this was offset by a very weak Zimbabwean Dollar resulting in Zimbabwe's Pula sales declining by 48.3%.

Namibia has successfully turned around with sales growth of 60.0% and like-for-like sales growth of 14.4%. Five new stores were opened during the year.

EBITDA grew 140% with EBIT loss reducing from BWP9 million to BWP2 million. Adjusted EBIT, excluding the depreciation reassessment, reduced from BWP9 million to BWP6 million.

Zambia continues to grow with sales up 44.7% and like-for-like sales growth of 33.3%. Three new stores were opened during the year.

While EBITDA declined by 26.4% due to the foreign exchange loss on the lease liability, adjusted EBITDA grew 27.1%. Adjusted EBIT declined marginally at 2.6%. We are confident that this country will generate taxable profits in the foreseeable future.

As reported in the first half, the Zimbabwean Dollar (ZWL) has significantly weakened especially in the last two months of the financial year

As a result of the above mentioned factors. Pula sales declined by 48.3%. EBIT and EBITDA declined by 151.6% and 125.5% respectively as cost inflation reduced margins. Adjusted EBIT and adjusted EBITDA declined 133.3% and 108.1% respectively.

**7. EVENTS AFTER REPORTING DATE**On 19 July 2023, Choppies acquired 76% (seventy-six percent) of the Kamoso Group for BWP2.00 (two Pula) and took cession of shareholders' loans to the value of BWP22 million. The Botswana Development Corporation (BDC) will retain its 24%
