QUARTERLY MARKET UPDATE – 30 SEPTEMBER 2019

BACKGROUND

Shumba Energy Ltd (“Shumba” or the “Company”) is an energy development company based in Botswana and listed on the Botswana Stock Exchange (BSE: SHUMBA). Shumba Energy has in recent years progressed from an exploration company to a development company and sits on over 4.5 billion tons of thermal coal. As a major industry player, Shumba Energy’s mission is to satisfy the growing energy demand in the SADC region through various strategies. For Shumba “Powering the Future” means addressing chronic power shortages head-on and supplying energy to affected southern African countries in a sustainable and cost-effective manner. Established in 2011, Shumba now owns a significant portion of advanced energy projects in Botswana and is uniquely positioned with its strategy to develop energy projects that are unaffected by the volatility of global coal prices. The Company’s main activities include project development and mining, coal trading, power generation and energy fuels.

Shumba Energy has 3 assets in development stage. These are as follows:

SECHABA PROJECT

Licenses: Prospecting License 053/2005 & 218/2016

Ownership: 100%

The project is in the Palapye region and has 1.1 billion tonnes gross in-situ. The project is covered by 2 prospecting licenses both of which are up to date and current with the department of mines. The coal is of a quality suitable for both power generation and coal exports. As at 30 September 2019 the Environmental and Social Impact Assessment and the mine feasibility studies for the project have been completed.

MORUPULE SOUTH RESOURCES PROJECT

License: Prospecting License 121/2010

Ownership: 97.5%

The project is also based in the Palapye region, 5km from the railway siding and has 2.45 billion tonnes gross in-situ. The project is covered by 1 license which is up to date and current with the department of mines. The coal is of a quality suitable for use in both the coal exports and for power generation. As at 30 September 2019 the Environmental and Social Impact Assessment and the mine feasibility study for the project were both underway. During the quarter Shumba increased its shareholding in the project to 97.5% from 75%.

MABESEKWA PROJECT**License: Prospecting License 428/2009****Ownership: 15%**

The project is based in the Francistown region. The project has a total of 0.9 billion tonnes gross in-situ. In 2018 the company entered into a partnership agreement with Kibo Energy plc, an AIM listed entity whereby Shumba retained 15% of the prospecting license. The project is covered by 1 license which is up to date and current with the department of mines. As at 30 September 2019 the Environmental and Social Impact Assessment and mine feasibility have been completed. A mining license application has been submitted to the department of mines.

During the current quarter Shumba signed a heads of agreement with Kibo Energy PLC to reposition and strategically leverage the Mabesekwa project. Under the agreement the parties will jointly manage and oversee the development of a bespoke 300MW power station which will power a PetroChemical plant which provide Botswana and Southern Africa with liquid fuels.
